

Wacky Wednesday Creative Sketchbook Exercise #3

# Photoshop Superimposition

Exercise: Demonstrate your Photoshop skills by superimposing your image into a famous (or not so famous) photograph. Choose from historical photos, album covers, fine art, great moments in sports or even a tabloid cover. Emphasis should be on seamless integration of the image through use of image effects, hue, saturation, levels and blending modes.

*Note: Make sure the image has suitable resolution for print.*
